

Discussion Forum

1. Write one Case Study item with a scenario and three multiple choice questions with respiratory therapy content.
2. Indicate the best response to each question.
3. Post your Case Study to the Discussion board under the topic of Types of Multiple Choice Items.
4. Review a minimum of two postings from your classmates and compare the difference between the items posted from the previous discussion with the items posted for this discussion forum. Include your observations regarding the level of difficulty of the questions depending on the item type, the information in the scenario as opposed to the independent questions and the thought process involved in selecting the response. Please be detailed when describing all of the concepts that you needed to consider and the thought process that you went through to select the answer.
